

# National Industrial Scale Association

February 14, 2023

Dear Members,

It brings great joy to continue the legacy of this phenomenal organization.

We will host our Spring 2023 Technical Conference in Lexington, Kentucky at the Hilton Lexington/Downtown, 369 West Vine Street, Lexington, KY. Please visit [nisa.org](http://nisa.org) to take care of your membership dues, conference registration, and sponsorships. You will also find links for hotel reservations and conference program on the [nisa.org](http://nisa.org) website.

Many thanks for the work of the board members in pulling this meeting together. Our Program Chair, Chris Hartman has a great program in the works, VP Matt Davis is pulling together the venue and the hospitality, and Hayley Sirinek who is keeping everything straight as our secretary/treasurer. Thanks also to Past-President, Tim Broemmer for setting up a R.J. Corman tour that you absolutely do not want to miss. And never forget our most recent Past-President Ryan, Garnhart who served for two years and helped make some tough calls. Finally, thanks to everyone who joins, attends, and sponsors to make it all possible.

Everyone who joins and attends NISA is invited by someone. Invite someone to this meeting that can partner in this mutually beneficial organization. On behalf of the board, we look forward to a great meeting in Lexington. Hope to see you there.

Sincerely,

Paul Batson  
NISA President, 2023
