

National Industrial Scale Association

February 24, 2023

Dear Members,

Each year NISA compiles a technical publication containing the subject matter presented at the conferences. NISA is dedicated to providing this technical publication as a reference for each of our members. Publications from previous years are available on the NISA website:

<https://www.nisa.org/technical-publications/>

NISA also organizes hospitality sessions during each conference, where attending members can mingle, relax, and discuss the technical presentations of the day.

To help fund our technical publication and the hospitality sessions, NISA depends on the generous support of manufacturers, suppliers, and members.

Sponsorship of the technical publication and hospitality sessions is \$300 and can be submitted on the NISA website:

<https://www.nisa.org/conference-sponsorship/>

All sponsors are recognized at the conference hall and in the technical publication.

Your continued support is very much appreciated.

Sincerely,

Hayley Sirinek
NISA Secretary/Treasurer
